# ABOUT US

At Palmwood Rentals, my mission is to bring the magic of world-class entertainment directly to your home or private venue. My business was built on the foundation of my own family's movie nights and karaoke sessions, and I started this company to help other families in the Inland Empire create those same lasting, laughter-filled memories without the high costs. Whether I'm setting up our massive 16FT inflatable cinema screen for a neighborhood watch party or preparing a professional karaoke stage, I treat every event as if it were for my own family, ensuring a high-impact experience every time.

I pride myself on a level of professional precision that you won't find with a standard equipment drop-off. When you book with me, you are getting a clean, premium setup—that means zero trip hazards and hidden wiring so your space looks as good as it sounds. I've dedicated my business to reliability, like the time I was able to save a client's boxing watch party just one hour before the fight after their own gear failed. From Inland Empire to Los Angeles and throughout Riverside County, I am committed to being the partner you can trust to make your next event a total success.
